Importance: High

Hi All,

Customer just called in as he was told they have a requirement for the kit this month as the A/C is in the hanger for maintenance now – what are our options for this? Is there a way we can have it partially ready, are there some already in the works that we can ship sooner, what can we do for him?

Thanks,
Lacey

Good morning,

Please see attached. Note that the customer has paid extra to have all items calibrated by us before shipping. I have added this as a note to the order as well.

Thanks,
Lacey
